

EVOLUTION

The new Benchmark.

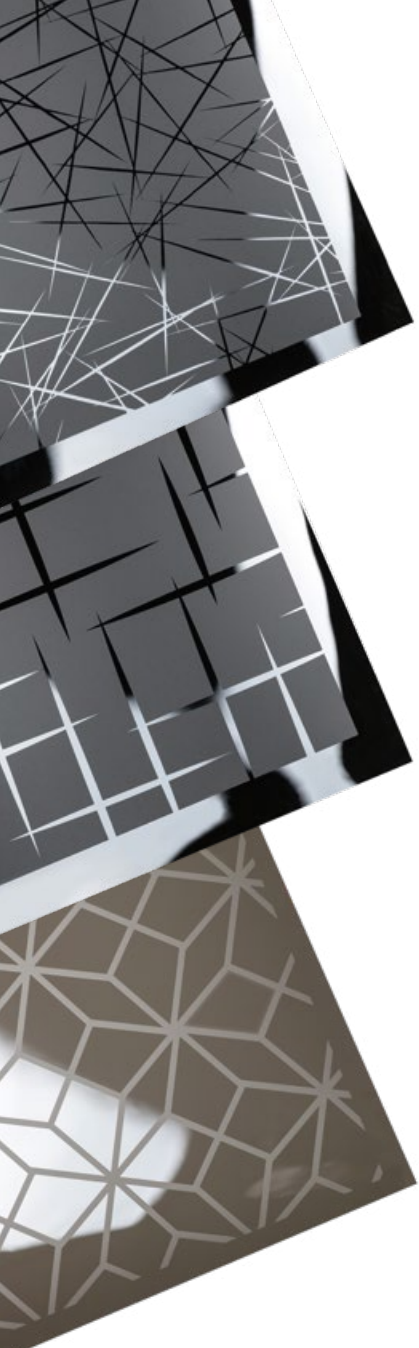

EVO , derived from "evolution", stands for progress in *quality, sustainability and design*. As a leading supplier of innovative furniture films, Senosan sets new industry standards with **senosan® EVO** and redefines the benchmark for high-quality furniture films.

The films are available in two different versions:

senosan® EVO without recycled material

senosan® rEVO with recycled material

senosan®

senosan®

evo

without recycled material

This furniture film developed by Senosan differs significantly from the usual films on the market. Due to its innovative multi-layer structure and premium lacquer coating the product is unique – this is confirmed by the following properties:

senosan® EVO is

- extremely scratch resistant
- chemical resistant
- in the matt version fingerprint repellent

This premium quality is available in

High gloss | **senosan® evo x**
Matt | **senosan® evo m**
Decors | **senosan® evo d**

Individual designs for your brand.

Through the combination of gloss and matt, we can produce exciting decors and effects. The double lacquer layer enables individual designs according to customer wishes.

The **EVO X** characteristics

Excellent gloss level

Excellent scratch resistance

Scour resistant

Increased UV resistance

Enormous chemical resistance

The **EVO M** characteristics

Excellent anti-fingerprint effect

Outstanding stain resistance

Supermatt, smooth surface

Excellent scratch resistance

Scour resistant

Increased UV resistance

Enormous chemical resistance

Pleasant surface feeling

Easy to clean and maintain

senosan®

rEVO

with recycled material

More and more furniture manufacturers are opting for surfaces made of recycled material to reduce the environmental impact and the CO₂ footprint. Internal and external recycling is intrinsic in the Senosan DNA, and films with a high recycled content have been produced for many years.

The green spirit figure is our symbol for our commitment to the environment.

This stance has prompted us to gradually increase the proportion of recycled material in our environmentally friendly films as well.

The film meets the highest standards, both technically and in design.

The premium lacquer coating makes the surface

- extremely scratch resistant
- chemical resistant
- in the matt version fingerprint repellent

Available in

High gloss | **senosan®** evo x
Matt | **senosan®** evo m
Decors | **senosan®** evo d
